

To Find Out How You Can Receive Your FREE Acupuncture Pain Relief Consultation, Plus A Bonus "Special Gift" Read This Special Message Below!

Hello Practice Member!

I am excited you are here on this page because **we have a few special gifts for you.** But before we get to that, I just wanted to take a quick minute to introduce myself.

My name is Dominic Sembello and I am board certified acupuncturist. I have been helping people get out of pain and improve their health concerns for over 10 years. I am very happy to announce that I have joined the HealthSource team in Toms River.

I have known Dr. Rizzo for 15 years and have been working together in different office locations for the past three years. One day while talking it hit us like a ton of bricks, we should be combining our health care efforts and putting our services under one roof. So, with that, we finally decided that it was time to join forces to help even more people achieve their health goals.

So what exactly does this mean for YOU?

Well for one, it means you can count on us to give you the best quality healthcare you have ever experienced, and it also means that you won't have to drive from one end of town to the next for many of your pain relief and healthcare needs.

So here's the deal...

“Millions Of People Around The World Are Benefitting From Safe, Effective, and Side-Effect Free Treatments...And So Can YOU!”

Chances are that you or someone you know is frustrated with a health condition that in some way or another is affecting how they live their life. **How Do I Know This?** Because we see it every day in our clinic.

There are many reasons why patients choose to receive acupuncture. Here are just a few reasons:

1. **They are frustrated with their current medical care.**
2. They are sick of taking medications that give them side-effects.
3. **They have tried other health care options with little or no results.**
4. They want to avoid surgery or other more invasive medical options.
5. **They are looking for a safe, natural, and side-effect free treatment options.**
6. They want to do whatever they can to get better once and for all.

At HealthSource, we pride ourselves on using acupuncture to not only improve your current health symptoms, but to keep you healthy long term so you can continue to live the fullest, most beneficial life that you can.

You have a unique opportunity here with us. Once it is determined that you are a good candidate for acupuncture and are accepted as a patient, you will be educated on what is the best way to treat your health conditions based on your needs. **In other words, you choose how you will best use our services.**

Acupuncture and Chinese Medicine is based on the knowledge that the human body has an enormous capacity for self-healing. At HealthSource, we are dedicated to nurturing that ability within every individual patient. We have successfully treated thousands of patients for disorders ranging from:

- Acute and Chronic pain
- Arthritis
- Headaches and Migraines
- Digestive Issues
- Sports Related Injuries and Rehab
- Allergies
- Women's Health Issues (from menstrual problems to menopause)
- Fibromyalgia
- Automobile Related Injuries
- Depression and Anxiety
- And much more!

What Sets Our Program Apart From Other Acupuncturists?

1. You will only be accepted as a patient if we are confident we can help you.
2. **You are treated like a person...NOT A DISEASE OR DIAGNOSIS.**
3. You will receive a thorough and comprehensive evaluation and diagnosis.
4. **You will be educated about why and how your health concerns are a problem and what you can do to prevent them from coming back in the future.**
5. Many acupuncturists use similar protocols on all of their patients. At HealthSource, you will have an individualized treatment plan specifically designed to meet your needs.
6. **We have multiple in-house medical professionals like medical doctors, chiropractic physicians, and physical therapists that we can refer you to when necessary. This is to ensure that you are getting the most comprehensive care possible for your condition so you get the best and fastest results.**
7. And Much, Much, More.

But don't take my word, take a look at what others have to say about their acupuncture care.

"I was recommended to try acupuncture by my Chiropractor. My health insurance covered my acupuncture treatments which was also a plus. I have structural issues with the curvature of my spine and my mid back is always tight and in spasm. I can't quite pinpoint how it works but IT DOES! Not only did it help me with my pain levels and muscle tightness it helped me relax and alleviated a lot of stress at the same time. During the treatments for some reason I was able to achieve a level of rest that I otherwise never get at home. I feel that adding acupuncture along with my chiropractic care really worked very well together. Even if I didn't have health insurance coverage, to me it would have been well worth the investment of time and money. I would recommend acupuncture for anyone who is looking to feel better!"

Sean O'Riordan, 32, High School Guidance Counselor

"I have been suffering with migraine headaches for over fifteen years which is more than the majority of my life. Medications help slightly when I get them but they don't prevent them from happening. When I get my headaches I often have to call out of work and lay down and sleep all day, it is terrible. On average I get them at least 2 times a month each and every month. After starting acupuncture, I didn't get my first migraine for 6 weeks. I was amazed. It was the longest I have gone without a headache in 15 years. Since then I have only had one headache in three months. I know acupuncture is working for me and I look forward to continuing my treatments. This is the best thing I have tried and I am so happy with the results so far!"

Michele Brinkmeyer, 27, Elementary School Teacher

*"My name is Patricia. I am a 49 year old woman who had been suffering from **Fibromyalgia** for 10 years before I started receiving acupuncture. What a difference when I did! My conditions improved in terms of my ability to move, my energy levels, I am not tired and my overall health condition has improved. I'm not the same person, my life has changed forever...**NO PAIN!!!** This was my last resort for treating health issues due to fibromyalgia. My doctor could not believe that I no longer have tender points."*

Patricia M., 49, NJ State Employee

*“I was having problems with my **shoulder** and did not want to continue the cortisone shots the orthopedic doctor had given me. Despite the shots I was still in a great deal of pain which kept me up at night and interfered with my active lifestyle, especially my golf game. A friend suggested trying Acupuncture and my shoulder has become as good as new.*

I really look forward to going for Acupuncture treatments. I find the office so friendly and the treatments are my most relaxing time of the day.

I have recommended acupuncture to many friends. If you have never tried it, you really should, it has made a world of difference in my life.”

Phyllis D., 61, Retired

So if you are ready to find out how your health condition and life can be improved with acupuncture simply fill out the form below to receive your FREE consultation.

Also, be one of the first 15 people to call or fill out the form below and you get a “Special Gift” when you come in for your consultation.
